Governments, Stocks and Bonds.

New York, June 10.-There was no rea change in the temper of the stock market to-day, and duliness was still its most pronment characteristic. While the movement in prices was confined to even a slighter movement than usual of late, the market finally closed without a single feature in the regular list, and generally at a shade below opening figures.
Railroad, government and state bonds, dull and steady.

Atwood, Violet & Co.'s Report.

Special to the Gazette

New Onceans, La., June 10.—Atwood, Violett & Co. say:
Futures—The bureau report to-day shows a loss in acreage of 2 3-10 per cent, an average condition of 85 7-10, and although conpected and the result was a drop of 12 points in the new crop and 11 on summer months both here and in New York. This is the lowest June report on record, but only slightly below 1883 and 1889. In those years the condition improved materially afterward. The crop of 1889-90 was 7.313,000 bules. As we said yesterday the conditions have improved materially since the 1st, while fairly good property from the growing com. At proved materially since the 1st, while fairly good prospects favor the growing crop. At present the question is what is to become of the stock carried over from the present crop. We look for a much lower Liver-pool market. The market has too much American cotton on hand and affort to want more at present, and in the meaning American possible. and in the meantime American markets will have to care for their own. Port receipts to day were 2800, against

GRAYSON COLLEGE.

Programme Carried Out at the Commence. ment Exercises - A Success Achieved That the People are Proud of.

orrespondence of the Gazette Whitewright, Grayson County, Tex., June 9.—The thirteenth annual commence-ment week exercises and literary entertainment of Grayson college began last Friday night, and will continue through the week. The first entertainment on the pro-gramme last Friday night was a joint discussion between members of the Sam Houston and Rose Cleveland literary socie-ties. On Saturday night the little folks in thes. On Saturday hight the fittle folks in the primary department gave a very credit-able entertainment. On Monday night the college charel was packed with the beauty and gallantry of the educational center of North Texas, and enjoyed a literary feast at the hands of five most eloquent and gifted young ladies, Misses Callie Smith, Edna and Lizzie Ray of Whitewright, and

Misses Lucy O'Neal of Greenville and Min-

Misses Lncy O'Neal of Greenville and Minnie Mundy of Dexter, Tex. Their recitations were well and gracefully rendered.

Messrs. John Savage and F. E. Godwin of Whitewright and W. H. Clift of Ethel, Tex., declaimed, showing careful preparation. These young ladies and gentlemen have a bright future before them, and Whitewright and Grayson college have a right to be proud of them. This was a contest for the Beskow medal to be awarded Thursday evening.

Thursday evening.
Tuesday evening the college hall was Tuesday evening the college hall was again packed with at least one thousand of Whitewright's best people, and many were compelled to go away, not being able to even get inside the building to witness the contest for Reeves and Renbell needais. Three modest, earnest young ladies and four determined young men occupied the platform. Misses Florence Phillips and Clara German of Whitewright, and Miss Charley Gaibreath of White Rock, covered themselves with glory, as well as with bethemselves with glory, as well as with be-quets. Their efforts were worthy much

more mature minds.
J. W. B. Smith of Jamison, Tex., delivered a touching eulogy on Jefferson Davis. W. V. Smith of Dallas orated on the past and future of Texas. He showed thorough and future of Texas. He showed thorough acquaintance with the subject and betrayed all the necessary qualities that go to make up a first-class immigration agent. We would recommend this gifted young gentleman to the Fort Worth Chamber of Com-

merce.

J. H. Chambers of Melissa discussed the ruling elements in party politics. Mr. Chambers is on to the Third party order and thinks it cuts a small figure with the people which of the old parties is in power, C. A. Landrum of Whitewright, a young gentleman with a forty-horse power imagination and the eloquence of a Cleero, pictured to an applauding audience "White-wright in 1991." He pictured a thrilling scene at the North Side Union depot in the Bonham suburb of Whitewright on the afternoon of September 1, 1892, on the arrival of seven air ships with 9000 students or of seven air ships with 9000 students on board for the Grayson college. The Knights of Pythias silver cornet band

rendered excellent music, and the occasion would have done credit to a much older in-stitution than Grayson college. Examinations in the various departments

have been going on daily during the week that showed results of a well conducted school, of a high educational standard. Whitewright is to be congratulated. The awarding of medals will be announced in Saturday's GAZETTE.

FACTORY STRUCK.

Mineola Has Got Her Bid in for Kinds of Factories and Wants Men with Pluck to Come There and Run Them.

MINEOLA, TEX., June 10, 1891. Mineola wants factories, and she don't care who knows it. We are favorably located for them, willing to put up for them and never intend to let up until we get them, do you hear it? We know what we have and are determined that other people hall know it to We have the world to be the wo shall know it too. We don't want any man or corporation to build a factory here that we are afraid to back with our money and patronage, either in donations or stock. We want every manufacturer that contemplates establishing plants in Texas to remember that we are on record, soliciting you to come and see us before you establish a plant of any kind in Texas. We want, first, a compress. Our local receipts of cotton will amount to 20,000 bales, and the compress will control as a such more from other points. At 50 central bale will from other points. At 50 central bale will give a return of \$4000 per point for five months in the year. Is also not good enough? We want a canning com-

of the last timber for 1000 miles West, and to Oregon Northwest. We already have a chair factory here that could not fill their orders were they to double their capacity and run day and night. We want a com-pany to build a train or narrow gauge rail-road for a logging road into the pineries northeast of us for the purpose of supplying saw mills erected here, and door, sash and blind factories. We want a barrel factory to supply our farmers who are engaged in the syrup and sugar industry. These are a few things we want, and must have. Our city has appropriated \$1500 to prospect for artesian water, and contract let for the work to be done. Should we so through salt beds in bering for artesian water, as we feel confident we will, from surface indications, and from the fact that thirteen miles west of us bots ave been found 100 feet thick, we will then want a sait plant here commensurate with the surroundings and advantages here

presented. We are not beliowing simply to make a noise, but to be heard by all legitimate manufacturing enterprises. We don't care to furnish the capital to start people in business, but to attract the attention of manufacturers already in business to the advantages here presented. business to the advantages here presented, assuring them that we will meet them in a liberal spirit, and do all that any legitimate manufacturing enterprise could expect, if on will come and east your lot with us
